

Testing & Inspection Services

Schedule of charges

Arrow Lighting & Electrical along with Arrow Automation can provide you with a wide variety of test and inspection services tailored to suit a wide variety of requirements and applications. If we have not listed a test or inspection service that suits your objectives, please contact us for further information.

Vehicles are charged for at \$60.00 + GST per visit and travel is charged, to the Place of work only, and not for the return journey, at the relevant hourly rate.

Meters such as portable appliance testers (PAT) and installation testers (but not grounding testers) are charged on a half-day or day-rate basis. Basic multi-meters and ammeters are not charged for.

Written reports are charged at the relevant hourly rate. Photographs and circuit test result sheets are included with reports where needed.

Specialised power quality monitoring equipment and underground cable fault tracers are POA.

Emergency lighting NZBC compliance testing and inspection is done on a per installation basis.

*The following charges are indicative hourly rates for inspection related services. More than one line item may apply to a test or inspection service (ie, **inspector's fee**) and pricing is exclusive of GST.*
